SENATOR MILLS: Mr. President, I would like to yield to the Speaker for just one second.

SENATOR BURBACH: Mr. President, members of the Legislature. Certainly Senator Mills is within his rights to make this request. I do want to urge this body, we have discussed this bill on Select File, we spend an excessive two hours on the bill, I would be hopeful that Senator Mills makes his plea and if someone else wants to make it, then I will call for the question, because we have discussed this. We do have a problem, and I don't want to sound like a broken record, but I would surely hope that this body would concur in having two individuals one or if the other one cares to avail himself of it, and that I will then be asked to be recognized and call of the question.

PRESIDENT: Before we commence on this procedure. The Chair then in the spirit of the Speaker would like to ask if those that are going to resist Senator Mills move could select one to speak for them, if we can't do it, do we have a volunteer? Senator Cavanaugh are you going to speak on the other side of this proposition.

SENATOR CAVANAUGH: A point of order. Your...

PRESIDENT: No, no. He is merely suggesting this. If it will work fine, if it won't work we will go by the rules.

SENATOR CAVANAUGH: I assume that everybody here has the same point of view and you don't have any idea until we hear what Senator Mills is going to say.

PRESIDENT: The Speaker has made a suggestion, if there is any way to work it, then the ones who will resist Senator Mills will pick a spokesman, other wise, it is wide open unless the Speaker orders and then you can appeal from him.

SENATOR CAVANAUGH: Well I'll object to that procedure.

PRESIDENT: Well, the Chair will recognize Senator Mills.

SENATOR MILLS: Mr. President, members of the Legislature. I asked to confer with the Speaker so that we could move on to things that are important such as LB703. I think that the membership here realize how they want to vote for or against this proposition. Being absent the other day, it was my prerogative to ask that this bill be reconsidered. There are a number of reasons why. I know that each one of you in your own mind know why you want to or why you do not. I just wanted to not take any time. I don't want to get up and argue the bill. I know how I want to vote, and I think that most people here do. Most.....the voting will not be swayed by debate because Senator Burbach said that it has already had about two hours. People have come to me and said, I'm sorry, I think that I have made a mistake. I would like to be able to reconsider my vote. Would you move. I so move. Mr. President, members of the Legislature on your desk I put a sheet of information concerning the detached facility. I would ask you to go through that. You know
